

Incident Manager

Incident Manager is an enterprise level collaborative tool to document and assess root causes of incidents. It can be used for regulatory compliance and non-regulatory compliance. Evaluated as "One of The Best Compliance Tools Available". Compliance to regulatory and your safe work practices and policies is mandatory. Incident Manager manages incidents and assists in the corrective action process. Used in conjunction with other HCI modules, Incident Manager organizes your incident information, root cause analysis and resolutions to support compliance to regulations like PSM, RMP and SPCC. Incident Manager is versatile and user friendly with user configurable look-up lists. Works with any browser. No ActiveX objects used.

Features:

Highlights

- Built for multiple plant/location collaboration
