

Training Manager

Training Manager is an enterprise level collaborative tool to create training programs and track training records. It can be used for regulatory training and non-regulatory training. Evaluated as "One of The Best Compliance Tools Available". Compliance to regulatory and your safe work practices and policies is mandatory. Training Manager manages the training requirements and training records. Used in conjunction with other HCI modules, Training Manager organizes your training information so that worker qualification status can be easily verified and support compliance to regulations like PSM, RMP and SPCC. Training Manager is versatile and user friendly with user configurable look-up lists. Works with any browser. No ActiveX objects used.

Features:

Highlights
